

SS7745LOK

Adjustable Subwoofer Pole w/ Locking Adapter

SPEAKER STANDS & ACCESSORIES

FEATURES AND BENEFITS

Set your speakers straight! All speaker/speaker stand connections have some degree of wobble. Our patent pending speaker adapter provides an effective, automatic response to crooked and tilted speaker setups. A manually activated ring controls sliders that expand to fill the gap between the pole and the insert, reducing any degree of wobble from wind or sound vibrations. Your speaker will stand straight, giving you peace of mind and adding a professional look to your set up. Pole adjusts from 32.5" to 47" in height and is reversible, allowing the locking end to be used at the subwoofer or at the top speaker.

Patent-pending adapter eliminates wobble and sets your speakers straight.

Friction locking knob adjusts the height from 26"-37" with security pin for added safety.

Set Your
Speakers
Straight!

A manually activated ring controls sliders that expand to fill the gap between the pole and the insert, reducing any degree of wobble from wind or sound vibrations.

PRODUCT SPECIFICATIONS

- > **Construction:** Steel
- > **Shaft Length Adj.:** 32.5"-47"
- > **Weight Capacity:** 100 lbs.
- > **Color:** Black Powder Coat Finish

Model#: **SS7745LOK**
Inv#: **10160**

List Price: **\$55.99**
Map Price: **\$33.95**
