

PVM™ 50 Super Cardioid Directional Microphone

OVERVIEW

The PVM™ 50 super cardioid dynamic microphone utilizes the latest technology to achieve optimum performance and smooth response. Featuring the same quality performance and smooth response of the PVM 44, the PVM 50 offers an even tighter directional pickup pattern. The PVM 50 is ideal for live vocal reinforcement by helping to eliminate bleed over and feedback, and for instrument or amplifier recording by allowing the user to dial in on the "sweet spot."

FEATURES

- Super cardioid-dynamic microphone
- Neodymium magnet capsule, transformer output
- Utilizes the latest technology to achieve optimum performance and smooth response
- Frequency response: 50 Hz to 16 kHz
