Product Description

Maono DGM20 is a fashionable easy-to-use USB microphone features simple looking, high performance, and an accessible price. The RGB lights are adjustable for eye-catching customizable style. Thanks to its noise cancelling function and great rejection towards background noise, Maono DGM20 is ideal for voice call, and it can greatly improve audio clearness. DGM20 features tap-to-mute function for easy audio input control. Real-time monitoring functions allows you to hear mic audio and computer audio in real time. A shock mount, a pop-filter and an adjustable are included and requires no installation. The Maono DGM20 USB-C microphone is plug-and-play, requiring no external driver. It can be used for applications like gaming, online calling, streaming on platforms like Discord, OBS, Xsplit, Youtube, Facebook, etc.

Features

- ENC Noise cancellation
- Controllable RGB lights
- Real-time monitoring
- One-button mute
- Adjustable gain
- Includes shock mount and pop filter
